Prime mercantile paper, 4264 per cent. Sterling exchange was quiet and weak, at \$4.84} for sixty-day bills, and \$4.87 for demand. The total sales of stocks to-day were 160,375 shares, including the following: Delaware, Lackawanna & Western, 13,460; Erie, 5,910; Hocking Valley, 3,165; Louisville & Nashville, 3,994; Missouri Pacific, 4,470; Northwesern, 3,300; Northern Pacific, preferred, 3,885; Oregon

Erie, preferred, 6,935.

The stock market to-day was quite dull, except in spots, and a few stocks monopolized the interest of the speculation. Except in one or two stocks, the movements were entirely insignificant, though the absence of a number of usually active brokers told against the animation. The news of the day was of a generally favorable character, though, Chicago being arrayed upon the "bear" side in stocks, there was a disposition shown to make the most of the reports of damage to the crops in certain sections. Heavy selling by Chicago was principally responsible for the fractional decline in the forenoon, though the traders lent a helping hand. The buying was by London and commission houses, but there was no progress made until the selling pressure abated, when, on a smaller business, prices regained the early losses and something in addition throughout the entire list. In the general list the coal stocks presented the firmest front, but the features of the day were the advances in Consolidated Gas, which was more active than usual, and Pullman, which resumed its upward movement, which has been interrupted for some days. The Northern Pacific group of stocks were promiment for strength, but in none except Oregon & Transcontinental was the gain made of special importance. The business at the opening of the market was very quiet, but the first sales were made at advances over Saturday's closing figures of from 1 to 1 per cent. The "bear" pressure, however, soon sagged the list off, and fractional declines ranging up to † per cent. were estab-lished. The activity, such as it was, ceased upon the cessation of the pressure and the mar-ket became dull and somewhat irregular for some time, but toward noon the Northern Pacifics became stronger and the general list followed slowly. The upward movement made very slow progress, but lasted until near delivery hour, when the advance was checked, though the best prices were well held throughout Consolidated Gas was the feature of the afternoon, and Lackawanna became quite strong toward 2 o'clock. The market finally closed duli and about steady at fractional advances over the opening figures. The declines are very few in number this evening, and the advances are generally for small fractions. The railroad bond market was fairly active

was very little animation anywhere in the list. The movements were quite irregular and generally for fractional amounts only, the only important change in quotations being in the Hocking Valley bonds, which showed marked strength on light transactions. The day's trading footed up \$1.974,000, of which Reading fours contributed \$346,000; the second incomes \$251, 000, and the first incomes \$158,000. The final changes are irregular, and the gains include Hocking Valley sixes, 3 to 821, Indiana, Bloomington & Western incomes, firsts, 2 to 23.

Wheat-August.

CHICAGO, Aug. 13.-Wheat opened with a show of strength, but prices could not standthere were too many things against the market. The early prices were made very largely on the strength of cables reiterating the bad weather reports on the other side. It was on this side the trouble was found. The export buying did not keep up with the bearish foreign advices. But greater than anything else was the tre-mendous increase in the visible supply, which was put down at 2,227,000 bushels. This was partly discounted early, when September went from 83 to down to 82 to, but the visible-supply figures posted later and the prospect of 350 cars here to-morrow, caused a further decline to 81 c, shortly before the close, a break of lie from the opening price. The corn market was a heavy one. The decline was the result of pretty fair selling, helped along by liberal receipts and the general weakness prevailing in other cereals. September opened at Saturday's price, 43jc, went down to 43% for bottom, and rallied a trifle before the close on buying to cover. In cats a weaker speculative market was witnessed. For all deliveries prices show a depreciation, which is most severe for near futures. Provisious were only moderately active in the speculative branch of the trade, and the volume of business was under the recent average. The feeling was rather nervous and prices unsettled, with the tendency downward after a show of strength early on smaller receipts of hogs at the stock-yards. Later, in sympathy with the break in wheat and corn, and under free selling of futures by a local house, there was a down turn of 32½ @37½c in mess pork, .02½ @.05c in lard and .12½c in ribs. Just at the close the market recovered a part of the ground lost, the latest bids for pork being only 10c under Saturday's closing. and for ribs .02 to off. September was the leading future. The leading futures ranged as fol-Opening. Highest. Lowest. Closing.

NEW YORK, Aug. 13.-Following is a statement of the visible supply of grain in store and affoat on Saturday, Aug. 11, 1888, as compiled at the New York Produce Exchange:

Wheat, 25,227,699 bu, an increase of 2,229,905 bu; corn. 8.539,092 bu, a decrease of 470,557 bu; oats, 1,773,327 bu, a decrease of 437,230 bu: rye, 176,989 bu, an increase of 24,044 bu; barley, 145,535 bu, an increase of 438 bu.

The Foreign Grain Trade. LONDON, Aug. 13.-The Mark Lane Express, in its review of the British grain trade during the past week, says: A fair amount of early wheat was cut during the week. Its quality was good, but still the general prospects are that the harvest will be inferior to that of the past few years. Not much English wheat is offering and quotations are unchanged. The sales of English wheat during the week were 16,789 quarters, at 34s 6d, against 21,632 quarters, at 33s 3d during the corresponding period last year. Flour is slower to sell. Foreign wheats are against sellers. Corn is unaltered. Linseed is 6d to 9d dearer. At to-day's market fine weather checked the upward tendency in wheat. English was scarce and unchanged; foreign was 6d lower. Flour was 3d cheaper. Oats were la dearer.

INDIANAPOLIS MARKETS.

Trade Opened Fairly Active in Most Departments with Steady Prices. INDIANAPOLIS, Aug. 13.

Trade opened up this week quite satisfactorily. The dry goods men were busy waiting on customers and filling mail orders. Firmness on all lines of dry goods is a prominent characteristic; especially is this true of cotton goods. sheetings and shirtings. Grocers were fairly busy. Prices on all staple articles are firm in tone. The condition of the coffee market is such that lower prices will not be a surprise in the near future. Sugars continue to move out briskly at unchanged prices. In commenting on this staple the New York Commercial Bulletin of Aug. 11 says: "Holders of raws evidently do not intend to become disturbed by any standingoff policy on the buying side, and in pretty much all cases calmly await the period when the force of necessity shall compel an opening up of fuller and more general demand. Everything in the

ing as for some time past, and the accounts at hand from primary sources are giving excellent support in the way of cost, prices, etc. Refined were not unusually active; but a fair general demand kept good proportion of the stock in molower grades." The produce markets, as usual on Monday, were quiet, as the commission men have but little to offer, so light are receipts. Eggs, poultry and butter are all firm at quotations. Apples of better quality are coming on to the market, and prices are improving. Pota-toes, like watermelous and nutmegs, are in abundant supply, and the buyer is in a large measure the one to name the price; especially is this true of melons. The seed market is more active at unchanged prices. Wool-dealers are feeling somewhat encouraged over the increas-ing inquiries for stock, and while prices are no better, there is certainly a better demand.

It was an off day in the local market. Prices were weaker and bidding tame, track bids
